

**Required Report:** Required - Public Distribution

**Date:** January 14,2021

**Report Number:** BR2020-0057

**Report Name:** Food and Agricultural Import Regulations and Standards  
Export Certificate Report

**Country:** Brazil

**Post:** Brasilia

**Report Category:** FAIRS Export Certificate Report

**Prepared By:** Priscila Ming

**Approved By:** Evgenia Ustinova

**Report Highlights:**

This report identifies Brazil's import requirements for foreign export certificates. An export certificate matrix and outline are included. There were some additional certificates and certificate changes added to the 2020 trade matrix that affect imports of agricultural products in general. This report supplements the FAIRS Narrative Report.

This report was prepared by the OAA Brasilia, for U.S. exporters of domestic food and agricultural products. While every possible care has been taken in the preparation of this report, information provided may not be completely accurate either because policies have changed since its preparation, or because clear and consistent information about these policies was not available. It is highly recommended that U.S. exporters verify the full set of import requirements with their foreign customers, who are normally best equipped to research such matters with local authorities, before any goods are shipped. FINAL IMPORT APPROVAL OF ANY PRODUCTS IS SUBJECT TO THE IMPORTING COUNTRY'S RULES AND REGULATIONS AS INTERPRETED BY BORDER OFFICIALS AT THE TIME OF PRODUCT ENTRY.

**Table of Contents**

Appendix I ..... 26

Appendix II ..... 29

**Appendix III** ..... 30

Appendix IV ..... 31

Section I

    List of All Export Certificates Required ..... 3

Section II

    Purpose of Specific Export Certificate ..... 10

Section III

    Specific Attestations Required on Export Certificate ..... 13

Section IV

    Government Certificate Legal Entry Requirements ..... 17

Section V

    Other Certification/Accreditation Requirements ..... 22

**Section I. List of All Export Certificates Required by Government:**

<b>Product(s)</b>	<b>Title of Certificate</b>	<b>Attestation Required on Certificate</b>	<b>Purpose</b>	<b>Requesting Ministry</b>
A – Beef and Beef Products*	<a href="#">Certificate for Export of Beef, Beef Products, and Offals to Brazil</a>	Public health attestations and animal health attestations	Health Certificate	Ministry of Agriculture, Livestock, and Food Supply
<i>*Note: The United States and Brazil are currently discussing the language to be used on the beef and beef products sanitary certificate. The Certificate is valid until March 31, 2021</i>				
B – Feed and Animal Supplements made with animal-origin ingredients	<a href="#">Good Manufacturing Practices Certificate for Animal-Origin Feed Products</a>	The plant where products are manufactured complies with this certificate	To obtain sanitary registration of the plant	Ministry of Agriculture, Livestock, and Food Supply
C – Fish and Fishery Products*	Health Certificate for Fish and Fish Products from Wild Fisheries (except shrimp and live animals)  <a href="#">See Appendix III of this report</a>	Public health attestations and animal health attestations	Health Certificate	Ministry of Agriculture, Livestock, and Food Supply
<i>*Note: The United States and Brazil are currently discussing the language to be used on the Fish and Fishery sanitary certificate. The Certificate is valid until March 31, 2021</i>				
D – Imported Plant Products	<a href="#">Phytosanitary Certificate</a>	Fulfills health requirements according to import license and	To obtain health certificate and import license	Ministry of Agriculture, Livestock, and

		sanitary inspection (see APHIS website)		Food Supply
E – Milk and Milk Products*	<a href="#">Sanitary Certificate For Milk and Milk Products Exported to Brazil</a>	Products have been heat-treated and conform to Brazil’s processing requirements	Health Certificate	Ministry of Agriculture, Livestock, and Food Supply
<i>*Note: The United States and Brazil are currently discussing the language to be used on the dairy sanitary certificate. The Certificate is valid until March 31, 2021</i>				
F – Pet: Dogs and Cats	<a href="#">Veterinary Health Certificate for Export of Dogs and Cats from the United States to Brazil</a>	Fulfills health requirements according to import license and sanitary inspection (see APHIS website)	To obtain health certificate	Ministry of Agriculture, Livestock, and Food Supply
G – Veterinary Drugs	<a href="#">Veterinary Drugs and Media for Laboratory Use Containing Animal-Origin Ingredients</a>	The plant where products are manufactured complies with this certificate	To certify that rinderpest, foot-and-mouth disease, classical swine fever, swine vesicular disease, African swine fever, and contagious pleuropneumonia do not exist in the United States of America	Ministry of Agriculture, Livestock, and Food Supply
H – Live Cattle for Breeding	<a href="#">International Veterinary Certificate for the Export of Live Cattle for Breeding from the United States to Brazil</a>	Fulfills health requirements according to import license and sanitary inspection (see APHIS website)	To obtain health certificate and import license	Ministry of Agriculture, Livestock, and Food Supply

I – Live Swine for Breeding	<a href="#">International Animal Health Certificate to Export Breeding Swine to Brazil from the United States</a>	Fulfills health requirements according to import license and sanitary inspection (see APHIS website)	To obtain health certificate and import license	Ministry of Agriculture, Livestock, and Food Supply
J – Permanent Export of Horses	<a href="#">International Veterinary Certificate Model for the Permanent Export of Horses to Brazil</a>	Fulfills health requirements according to import license and sanitary inspection (see APHIS website)	To obtain health certificate and import license	Ministry of Agriculture, Livestock, and Food Supply
K – Hatching Eggs of Domestic Birds and Day-Old Poultry	<a href="#">International Veterinary Certificate for the Importation of Hatching Eggs of Domestic Birds and Day-Old Poultry</a>	Fulfills health requirements according to import license and sanitary inspection (see APHIS website)	To obtain health certificate and import license	Ministry of Agriculture, Livestock, and Food Supply
L – Hatching Specific-Pathogen-Free (SPF) Eggs	<a href="#">Animal Health Certification for Exportation of Hatching Specific-Pathogen-Free (SPF) Eggs from the United States to Brazil</a>	Fulfills health requirements according to import license and sanitary inspection (see APHIS website)	To obtain health certificate and import license	Ministry of Agriculture, Livestock, and Food Supply
M – Semen	<a href="#">Veterinary Health</a>	Fulfills health	To obtain health	Ministry of

(bovine)	<a href="#">Certificate for Export of Frozen Bovine and Bison Semen from the United States to Brazil</a>	requirements according to import license and sanitary inspection (see APHIS website)	certificate and import license	Agriculture, Livestock, and Food Supply
N – Semen (caprine)	<a href="#">Animal Health Certificate for Exportation of Caprine Semen from the United States to Brazil</a>	Fulfills health requirements according to import license and sanitary inspection (see APHIS website)	To obtain health certificate and import license	Ministry of Agriculture, Livestock, and Food Supply
O – Semen (ovine)	<a href="#">International Animal Health Certificate for United States Frozen Ovine Semen Exported to Brazil</a>	Fulfills health requirements according to import license and sanitary inspection (see APHIS website)	To obtain health certificate and import license	Ministry of Agriculture, Livestock, and Food Supply
P – Scoured Wool	<a href="#">Certification Requirements for the Export of Scoured Wool to Brazil</a>	The plant where products are manufactured have required licenses and animals are free of disease	To obtain health certificate	Ministry of Agriculture, Livestock, and Food Supply
Q – Extruded and Pelletized Pet Foods	<a href="#">Extruded and Pelletized Pet Foods for Dogs, Cats, Reptiles, and Ferrets</a>	The plant where products are manufactured complies with this certificate	To obtain product registration	Ministry of Agriculture, Livestock, and Food Supply

	<a href="#">(Mustelidae) for export to Brazil from the United States</a>			
R – Semen (equine)	<a href="#">International Animal Health Certificate for the Export of Equine Frozen Semen from the United States to Brazil</a>	Fulfills health requirements according to import license and sanitary inspection (see APHIS website)	To obtain health certificate and import license	Ministry of Agriculture, Livestock, and Food Supply
S – Semen (pork)	<a href="#">Model International Certificate (CUI) for the Export of Frozen Pork Semen from the United States to Brazil</a>	Fulfills health requirements according to import license and sanitary inspection (See APHIS website)	To obtain health certificate and import license	Ministry of Agriculture, Livestock, and Food Supply
T – Ornamental Fish	<a href="#">Animal Health Import Requirements for Aquatic Animals for Ornamental Purposes Not Intended for Commercial Reproduction</a>	Fulfills health requirements according to import license and sanitary inspection (See APHIS website)	To obtain health certificate and import license	Ministry of Agriculture, Livestock, and Food Supply
U – Eggs of Rainbow Trout	<a href="#">Animal Health Certificate Model to Accompany the Exportation of Embryonated Eggs</a>	Fulfills health requirements according to import license and sanitary inspection (See APHIS website)	To obtain health certificate and import license	Ministry of Agriculture, Livestock, and Food Supply

	<a href="#">of Rainbow Trout from the United States to Brazil for Breeding Purposes</a>	APHIS website)		
V – Ornamental Pet Birds	<a href="#">Health Certificate for the Export of Ornamental Pet Birds from the United States to Brazil</a>	Fulfills health requirements according to import license and sanitary inspection (See APHIS website)	To obtain health certificate and import license	Ministry of Agriculture, Livestock, and Food Supply
W – Embryos (bovine)	<a href="#">International Health Certificate for the Export of Bovine Embryos Collected <i>in Vivo</i> and/or Produced <i>in Vitro</i> from United States to Brazil</a>	Fulfills health requirements according to import license and sanitary inspection (See APHIS website)	To obtain health certificate and import license	Ministry of Agriculture, Livestock, and Food Supply
X –Temporary Export of Horses	<a href="#">International Zoosanitary Certificate for the Temporary Export of Equidae from the United States to Brazil</a>	Fulfills health requirements according to import license and sanitary inspection (See APHIS website)	To obtain health certificate and import license	Ministry of Agriculture, Livestock, and Food Supply
Y – Tilapia Fingerlings	<a href="#">Health Certificate for Nile Tilapia fingerlings from the United States to Brazil</a>	Fulfills health requirements according to import license and sanitary inspection (See APHIS website)	To obtain health certificate and import license	Ministry of Agriculture, Livestock, and Food Supply

Z – Canine Semen	<a href="#">International Animal Health Certificate for Export of Dog Semen from the United State of America to Brazil</a>	Fulfills health requirements according to import license and sanitary inspection (See APHIS website)	To obtain health certificate and import license	Ministry of Agriculture, Livestock, and Food Supply
AA – Lobster and Lobster Products	Health Certificate for Lobster and Lobster Products from Wild Fisheries  <a href="#">See Appendix IV of this report</a>	Public health attestations and animal health attestations	Health Certificate	Ministry of Agriculture, Livestock, and Food Supply
BB – Live Shrimp	<a href="#">Addendum to the VS Form 17-141 for Export of the Penaeidae Family from United States to Brazil</a>	Public health attestations and animal health attestations	Health Certificate	Ministry of Agriculture, Livestock, and Food Supply
Other certificates not listed here:	Please access: <a href="https://www.aphis.usda.gov/aphis/ourfocus/animalhealth/export/iregs-for-animal-product-exports/sa_international_regulations/sa_by_country/sa_b/ct_product_brazil">https://www.aphis.usda.gov/aphis/ourfocus/animalhealth/export/iregs-for-animal-product-exports/sa_international_regulations/sa_by_country/sa_b/ct_product_brazil</a>			

## Section II. Purpose of Specific Export Certificates

- A. Certificate for Export of Beef, Beef Products, and Offals to Brazil: The Ministry of Agriculture, Livestock, and Food Supply (Ministério da Agricultura, Pecuária e Abastecimento – MAPA) requires a health certificate to protect consumer health and ensure food safety. *Note: The United States and Brazil are currently discussing the language to be used on the beef and beef products sanitary certificate. The current certificate is valid until March 31, 2021.*
- B. Good Manufacturing Practices Certificate for Animal-Origin Feed Products: MAPA requires a Good Manufacturing Practices (GMP) certificate for animal-origin feed products as proof that feed and animal supplements were produced under practices that make the product safe for animal consumption. This certificate is required to obtain the sanitary registration of the plant.
- C. Health Certificate for Fish and Fish Products from Wild Fisheries (except shrimp and live animals): MAPA requires a health certificate to prevent the introduction of foreign diseases and ensure food safety. *Note: The United States and Brazil are currently discussing the language to be used on the fish and fish products sanitary certificate. The current certificate is valid until March 31, 2021.*
- D. Phytosanitary Certificate: MAPA requires a phytosanitary certificate for different types of plants and vegetables to prevent the introduction of foreign pests and diseases.
- E. Sanitary Certificate for Milk and Milk Products Exported to Brazil: MAPA requires a specific health certificate to protect consumer health and ensure food safety. *Note: The United States and Brazil are currently discussing the language to be used on the dairy and dairy products sanitary certificate. The current certificate is valid until March 31, 2021.*
- F. Veterinary Health Certificate for Export of Dogs and Cats from the United States to Brazil: MAPA requires a health certificate to prevent the introduction of diseases.
- G. Veterinary Drugs and Media for Laboratory Use Containing Animal-Origin Ingredients: MAPA requires additional certification statements on Veterinary Services (VS) Form 16-4, to prevent introduction of foreign pests and diseases.
- H. International Veterinary Certificate for the Export of Live Cattle for Breeding from the United States to Brazil: MAPA requires a health certificate to prevent the introduction of diseases.
- I. International Animal Health Certificate to Export Breeding Swine to Brazil from the United States: MAPA requires a health certificate to prevent the introduction of diseases.
- J. International Veterinary Certificate Model for the Permanent Export of Horses to Brazil: MAPA requires a health certificate to prevent the introduction of diseases.

- K. International Veterinary Certificate for the Importation of Hatching Eggs of Domestic Birds and Day-Old Poultry: MAPA requires a health certificate to prevent the introduction of diseases.
- L. Animal Health Certificate for Exportation of Hatching SPF (Specific-Pathogen-Free) Eggs from the United States to Brazil: MAPA requires a health certificate to prevent the introduction of diseases.
- M. Veterinary Health Certificate for Export of Frozen Bovine and Bison Semen from the United States to Brazil: MAPA requires a health certificate to prevent the introduction of diseases. This certificate was updated in July 2019.
- N. Animal Health Certificate for Exportation of Caprine Semen from the United States to Brazil: MAPA requires a health certificate to prevent the introduction of diseases.
- O. International Animal Health Certificate for United States Frozen Ovine Semen Exported to Brazil: MAPA requires a health certificate to prevent the introduction of diseases.
- P. Certification Requirements for the Export of Scoured Wool to Brazil: MAPA requires an additional declaration on VS Form 16-4, Export Certificate for Animal Products.
- Q. Extruded and Pelletized Pet Foods for Dogs, Cats, Reptiles, and Ferrets (Mustelidae) to Brazil from the United States: MAPA requires an additional declaration on VS Form 16-4, Export Certificate for Pelletized Pet Foods.
- R. International Animal Health Certificate for Export of Equine Frozen Semen from the United States to Brazil: MAPA requires a health certificate to prevent the introduction of diseases.
- S. Model International Certificate (CVI) for the Export of Frozen Pork Semen from United States to Brazil: MAPA requires a health certificate to prevent the introduction of diseases.
- T. Animal Health Import Requirements for Aquatic Animals for Ornamental Purposes Not Intended for Commercial Reproduction: MAPA requires a health certificate to prevent the introduction of diseases.
- U. Animal Health Certificate Model to Accompany the Exportation of Embryonated Eggs of Rainbow Trout from the United States to Brazil for Breeding Purposes: MAPA requires a health certificate to prevent the introduction of diseases.
- V. Health Certificate for the Export of Ornamental Pet Birds from the United States to Brazil: MAPA requires a health certificate to prevent the introduction of diseases.
- W. International Health Certificate for the Export of Bovine Embryos Collected *in Vivo* and/or Produced *in Vitro* from the United States to Brazil: MAPA requires a health certificate to prevent the introduction of diseases.

- X. International Zoosanitary Certificate for the Temporary Export of Equidae from the United States to Brazil: MAPA requires a health certificate to prevent the introduction of diseases.
- Y. Health Certificate for Nile Tilapia Fingerlings from the United States to Brazil: MAPA requires a health certificate to prevent the introduction of diseases.
- Z. International Animal Health Certificate for Export of Dog Semen from the United States of America to Brazil: MAPA requires a health certificate to prevent the introduction of diseases.
- AA. Health Certificate for Lobster and Lobster Products from Wild Fisheries: MAPA requires a health certificate to prevent the introduction of foreign diseases and ensure food safety.
- BB. Addendum to the VS Form 17-141 for Export of the *Penaeidae* Family from United States to Brazil: MAPA requires a health certificate to prevent the introduction of foreign diseases and ensure food safety.

### Section III. Specific Attestations Required on Export Certificate

- A. Certificate for Export of Beef, Beef Products, and Offals to Brazil: MAPA requires specific public health and animal health attestations. The certificate must follow a special format defined by MAPA. These certificates must be signed by the USDA Food Safety and Inspection Service (FSIS).
- B. Good Manufacturing Practices Certificate for Animal-Origin Feed Products: MAPA does not require a specific attestation or format for this certificate. Certificates are to be issued by the official sanitary authority from United States; other third-party agency certificates are not permissible for registration purposes. USDA and the Food and Drug Administration (FDA) issue these certificate statements, depending on the type of feed ingredient.
- C. Health Certificate for Fish and Fish Products from Wild Fisheries (except shrimp and live animals): MAPA requires specific public health and animal health attestations. The certificate must follow a special format defined by MAPA. These certificates must be signed by the National Oceanic and Atmospheric Administration (NOAA).
- D. Phytosanitary Certificate: MAPA requires specific public health attestations for human consumption and an attestation that the plants are free of pests and diseases. The certificate's attestations will vary by product. For example, in the case of strawberries, the certificate must have an attestation that they are free of mites. APHIS issues certificates for several types of plant products. Requirements and specifications are accessible on the [APHIS FAVIR](#) website.
- E. Sanitary Certificate for Milk and Milk Products Exported to Brazil: MAPA requires specific public health and animal health attestations. Dairy products for human consumption produced in the United States should be certified by the USDA Agricultural Marketing Service (AMS) Dairy Programs. Brazil negotiated a specific USDA/AMS certificate as the appropriate document for these products.
- F. Veterinary Health Certificate for Export of Dogs and Cats from the United States to Brazil: Requirements and specifications are accessible on the [APHIS LIBRARY](#) website.
- G. Veterinary Drugs and Media for Laboratory Use Containing Animal-Origin Ingredients: MAPA requires this attestation to certify that rinderpest, foot-and-mouth disease, classical swine fever, swine vesicular disease, African swine fever, and contagious pleuropneumonia do not exist in the United States. APHIS issues this certificate.
- H. International Veterinary Certificate for the Export of Live Cattle for Breeding from the United States to Brazil: MAPA requires specific animal health attestations. The certificate must follow a special format defined by MAPA. The veterinary authority from APHIS must sign these certificates to certify that the animals described therein have been inspected and/or tested for the specified diseases, and conform to the current veterinary requirements of the importing country.

- I. International Animal Health Certificate to Export Breeding Swine to Brazil from the United States: MAPA requires specific animal health attestations. The certificate must follow a special format defined by MAPA. The veterinary authority from APHIS must sign these certificates. Specific attestations are described in the certificate linked in Appendix I of this report.
- J. International Veterinary Certificate Model for the Permanent Export of Horses to Brazil: MAPA requires specific animal health attestations. The certificate must follow a special format defined by MAPA. The veterinary authority from APHIS must sign these certificates. Specific attestations are described in the certificate linked in Appendix I of this report.
- K. International Veterinary Certificate for the Importation of Hatching Eggs of Domestic Birds and Day-Old Poultry: MAPA requires specific animal health attestations. The certificate must follow a special format defined by MAPA. The veterinary authority from APHIS must sign these certificates. Specific attestations are described in the certificate linked in Appendix I of this report.
- L. Animal Health Certificate for Exportation of Hatching SPF (Specific-Pathogen-Free) Eggs from the United States to Brazil: MAPA requires specific animal health attestations. The certificate must follow a special format defined by MAPA. The veterinary authority from APHIS must sign these certificates. Specific attestations are described in the certificate linked in Appendix I of this report.
- M. Veterinary Health Certificate for Export of Frozen Bovine and Bison Semen from the United States to Brazil: MAPA requires specific animal health attestations. The certificate must follow a special format defined by MAPA. The veterinary authority from APHIS must sign these certificates. Specific attestations are described in the certificate linked in Appendix I of this report.
- N. Animal Health Certificate for Exportation of Caprine Semen from the United States to Brazil: MAPA requires specific animal health attestations. The certificate must follow a special format defined by MAPA. The veterinary authority from APHIS must sign these certificates. Specific attestations are described in the certificate linked in Appendix I of this report.
- O. International Animal Health Certificate for United States Frozen Ovine Semen Exported to Brazil: MAPA requires specific animal health attestations. The certificate must follow a special format defined by MAPA. The veterinary authority from APHIS must sign these certificates. Specific attestations are described in the certificate linked in Appendix I of this report.
- P. Certification Requirements for the Export of Scoured Wool to Brazil: MAPA requires additional declarations on VS Form 16-4A to ensure scoured wool facilities have licenses from the proper state authorities and that the animals are free from certain diseases. APHIS issues these certifications statements.

- Q. Extruded and Pelletized Pet Foods for Dogs, Cats, Reptiles, and Ferrets (Mustelidae) to Brazil from the United States: For pet food registrations, APHIS/VS facilitates the process by issuing a certificate for registration purposes, following an inspection of the facility to ensure it meets the conditions listed in the certificate linked in Appendix I of this report. An additional statement pertaining to good manufacturing practices (GMP) is required. APHIS/VS Area Offices can include an additional statement supported by an affidavit or certificate from a state agency that regulates pet food and has competency to regulate GMP. This statement attests that the pet food product identified on the certificate and made in the subject facility is produced under good manufacturing practices.
- R. International Animal Health Certificate for Export of Equine Frozen Semen from the United States to Brazil: MAPA requires specific animal health attestations. The certificate must follow a special format defined by MAPA. The veterinary authority from APHIS must sign these certificates. Specific attestations are described in the certificate linked in Appendix I of this report.
- S. Model International Certificate (CVI) for the Export of Frozen Pork Semen from United States to Brazil: MAPA requires specific animal health attestations. The certificate must follow a special format defined by MAPA. The veterinary authority from APHIS must sign these certificates.
- T. Animal Health Import Requirements for Aquatic Animals for Ornamental Purposes Not Intended for Commercial Reproduction: MAPA requires specific animal health attestations. The certificate must follow a special format defined by MAPA. The veterinary authority from APHIS must sign these certificates.
- U. Animal Health Certificate Model to Accompany the Exportation of Embryonated Eggs of Rainbow Trout from the United States to Brazil for Breeding Purposes: MAPA requires specific animal health attestations. The certificate must follow a special format defined by MAPA. The veterinary authority from APHIS must sign these certificates. Specific attestations are described in the certificate linked in Appendix I of this report.
- V. Health Certificate for the Export of Ornamental Pet Birds from the United States to Brazil: MAPA requires specific animal health attestations. The certificate must follow a special format defined by MAPA. The veterinary authority from APHIS must sign these certificates.
- W. International Health Certificate for the Export to Brazil of Bovine Embryos Collected *in Vivo* and/or Produced *in Vitro* from United States: MAPA requires specific animal health attestations. The certificate must follow a special format defined by MAPA. The veterinary authority from APHIS must sign these certificates.
- X. International Zoosanitary Certificate for the Temporary Export of Equidae from the United States to Brazil: MAPA requires specific animal health attestations. The certificate must

follow a special format defined by MAPA. The veterinary authority from APHIS must sign these certificates.

- Y. Health Certificate for Nile Tilapia Fingerlings from the United States to Brazil: MAPA requires specific animal health attestations. The certificate must follow a special format defined by MAPA. The veterinary authority from APHIS must sign these certificates.
- Z. International Animal Health Certificate for Export of Dog Semen from the United States of America to Brazil: MAPA requires specific animal health attestations. The certificate must follow a special format defined by MAPA. The veterinary authority from APHIS must sign these certificates.
- AA. Health Certificate for Lobster and Lobster Products from Wild Fisheries: MAPA requires specific public health and animal health attestations. The certificate must follow a special format defined by MAPA. These certificates must be signed by the National Oceanic and Atmospheric Administration (NOAA).
- BB. Addendum to the VS Form 17-141 for Export of the *Penaeidae* Family from United States to Brazil: MAPA requires specific public health and animal health attestations. The certificate must follow a special format defined by MAPA. The veterinary authority from APHIS must sign these certificates.

#### **Section IV. Government Certificate Legal Entry Requirements**

- A. Certificate for Export of Beef, Beef Products, and Offal to Brazil: Prior to product shipment, the importer must request from MAPA an import license (abbreviated as “LI” in Portuguese); importers must be registered with the Ministry of Finance’s Integrated Foreign Trade System (Sistema Integrado de Comércio Exterior - SISCOMEX) in order to request an LI. Import licenses are valid for a maximum of 30 calendar days. The original certificate must accompany the product at the time of entry.
- B. Good Manufacturing Practices Certificate for Animal-Origin Feed Products: MAPA requires a GMP certificate, which is used to obtain plant approval to export animal-origin feed products to Brazil. This certificate is not required to accompany the product. GMP certificates for animal-origin products are issued by APHIS, which will issue a separate health certificate for each feed category or animal supplement. The certificate must accompany the imported goods. MAPA does not accept third-party GMP certificates, but they do accept GMP certificates issued by U.S. states. For example, a certificate issued by the Wisconsin Department of Agriculture would be acceptable to the Brazilian authorities.
- C. Health Certificate for Fish and Fish Products from Wild Fisheries (except shrimp and live animals): Prior to product shipment, the importer must request an LI from MAPA. Importers must be registered with SISCOMEX to request an LI, which is valid for a maximum of 30 calendar days. The original certificate must accompany the product at the time of entry.
- D. Phytosanitary Certificate: APHIS issues phytosanitary certificates, which must be signed and stamped by an APHIS-accredited official. These certificates are usually valid for 90 days and are issued for a single shipment. Certificate must be issued in accordance with protocol requirements.
- E. Sanitary Certificate for Milk and Milk Products Exported to Brazil: Prior to product shipment, the importer must request an LI from MAPA. Importers must be registered with SISCOMEX to request a LI, which is valid for a maximum of 30 calendar days. The original certificate must accompany the product at the time of entry.
- F. Veterinary Health Certificate for Export of Dogs and Cats from the United States to Brazil: APHIS issues health certificates for pet dogs and cats. Forms must be signed and stamped by an APHIS-accredited veterinarian. This International Veterinary Certificate is valid for 60 days from the date of issuance. The original certificate must accompany the animal at the time of entry.
- G. Veterinary Drugs and Media for Laboratory Use Containing Animal-Origin Ingredients: Veterinary drugs that are not licensed by the APHIS Center for Veterinary Biologics and media for laboratory use containing animal-origin ingredients exported to Brazil must be accompanied by an animal health certificate in English and Portuguese issued by the Official Veterinary Service. Prior to product shipment, the importer must request an LI from MAPA. The original certificate must accompany the product at the time of entry.

- H. International Veterinary Certificate for the Export of Live Cattle for Breeding from the United States to Brazil: Prior to product shipment, the importer must request an LI from MAPA. Importers must be registered with SISCOMEX to request an LI. APHIS issues health certificates for live cattle. Forms must be signed and stamped by an APHIS-accredited veterinarian. The health certificate is valid for 10 days prior to embarkation. The original certificate must accompany the animal at the time of entry.
- I. International Animal Health Certificate to Export Breeding Swine to Brazil from the United States: Prior to product shipment, the importer must request an LI from MAPA. Importers must be registered with SISCOMEX to request an LI. APHIS issues health certificates for live swine. Forms must be signed and stamped by an accredited APHIS veterinarian. The health certificate is valid for 10 days prior to embarkation. The original certificate must accompany the animal at the time of entry.
- J. International Veterinary Certificate Model for the Permanent Export of Horses to Brazil: Prior to product shipment, the importer must request an LI from MAPA. Importers must be registered with SISCOMEX to request an LI. APHIS issues health certificates for live horses. Forms must be signed and stamped by an APHIS-accredited veterinarian. The health certificate is valid for 10 days prior to embarkation. The original certificate must accompany the animal at the time of entry.
- K. International Veterinary Certificate for the Importation of Hatching Eggs of Domestic Birds and Day-Old Poultry: Prior to product shipment, the importer must request an LI from MAPA. Importers must be registered with SISCOMEX to request an LI. APHIS issues health certificates for hatching eggs of domestic birds and day-old poultry. Forms must be signed and stamped by an APHIS-accredited veterinarian. The health certificate is valid for 10 days prior to embarkation. The original certificate must accompany the shipment at the time of entry.
- L. Animal Health Certificate for Exportation of Hatching SPF (Specific-Pathogen-Free) Eggs from the United States to Brazil: Prior to product shipment, the importer must request an LI from MAPA. Importers must be registered with SISCOMEX to request an LI. APHIS issues health certificates for SPF eggs. Forms must be signed and stamped by an APHIS-accredited veterinarian. The health certificate is valid for 10 days prior to embarkation. The original certificate must accompany the shipment at the time of entry.
- M. Veterinary Health Certificate for Export of Frozen Bovine and Bison Semen from the United States to Brazil: Prior to product shipment, the importer must request an LI from MAPA. Importers must be registered with SISCOMEX to request an LI. APHIS issues health certificates for bovine semen. Forms must be signed and stamped by an APHIS-accredited veterinarian. The original certificate must accompany the product at the time of entry. The certificate cannot be applied to multiple containers. Each container must have only one species. If the importer has purchased different species, they must be shipped in separate containers.

- N. Animal Health Certificate for Exportation of Caprine Semen from the United States to Brazil: Prior to product shipment, the importer must request an LI from MAPA. Importers must be registered with SISCOMEX to request an LI. APHIS issues health certificates for caprine semen. Forms must be signed and stamped by an APHIS-accredited veterinarian. The original certificate must accompany the product at the time of entry. The certificate cannot be applied to multiple containers. Each container must have only one species. If the importer has purchased different species, they must be shipped in separate containers.
- O. International Animal Health Certificate for United States Frozen Ovine Semen Exported to Brazil: Prior to product shipment, the importer must request an LI request from MAPA. Importers must be registered with SISCOMEX to request an LI. APHIS issues health certificates for ovine semen. Forms must be signed and stamped by an APHIS-accredited veterinarian. The original certificate must accompany the product at the time of entry. The certificate cannot be applied to multiple containers. Each container must have only one species. If the importer has purchased different species, they must be shipped in separate containers.
- P. Certification Requirements for the Export of Scoured Wool to Brazil: Prior to product shipment, the importer must request an LI from MAPA. Importers must be registered with SISCOMEX to request an LI. The required bilingual (English/Portuguese) certification statements should be made in the “Additional Declaration” section of VS Form 16-4, Export Certificate for Animal Products, and the continuation page(s) of VS Form 16-4A, as necessary. A notarized affidavit from the manufacturer is required to support these statements on the export certificate issued by APHIS Veterinary Services.
- Q. Extruded and Pelletized Pet Foods for Dogs, Cats, Reptiles, and Ferrets (Mustelidae) to Brazil from the United States: The export of extruded and pelletized pet foods to Brazil requires that an importer representing and authorized by the exporting company be registered with MAPA. This registration is valid for up to 5 years. Product registrations are also typically required and are valid for 10 years. Product registration requires evidence that the product and the manufacturing company are authorized to produce the product in the United States. The registration can generally be renewed annually by paying a fee.
- R. International Animal Health Certificate for Export of Equine Frozen Semen from the United States to Brazil: Prior to product shipment, the importer must request an LI request from MAPA. Importers must be registered with SISCOMEX to request an LI. APHIS issues health certificates for equine semen. Forms must be signed and stamped by an APHIS-accredited veterinarian. The original certificate must accompany the product at the time of entry. The certificate cannot be applied to multiple containers. Each container must have only one species. If the importer has purchased different species, they must be shipped in separate containers.
- S. Model International Certificate (CVI) for the Export of Frozen Pork Semen from Unites States to Brazil: Prior to product shipment, the importer must request an LI request from MAPA. Importers must be registered with SISCOMEX to request an LI. APHIS issues health certificates for pork semen. Forms must be signed and stamped by an APHIS-

accredited veterinarian. The original certificate must accompany the product at the time of entry. The certificate cannot be applied to multiple containers. Each container must have only one species. If the importer has purchased different species, they must be shipped in separate containers.

- T. Animal Health Import Requirements for Aquatic Animals for Ornamental Purposes Not Intended for Commercial Reproduction: Animals imported for this purpose must remain into closed containers, e.g. aquariums or closed ornamental ponds. Prior to product shipment, the importer must request an LI request from MAPA. Importers must be registered with SISCOMEX to request an LI. APHIS issues health certificates for ornamental fish.
- U. Animal Health Certificate Model to Accompany the Exportation of Embryonated Eggs of Rainbow Trout from the United States to Brazil for Breeding Purposes: The aquatic animals to be exported must be shipped under conditions, including water quality, that do not alter their health status. The animals must be: 1) packaged in a way to not change their health condition; and 2) placed in new containers or ones that were previously cleaned and disinfected with officially approved products. Prior to product shipment, the importer must request an LI request from MAPA. Importers must be registered with SISCOMEX to request an LI. APHIS issues health certificates for rainbow trout eggs. Forms must be signed and stamped by an APHIS -accredited veterinarian. The original certificate must accompany the product at the time of entry.
- V. Health Certificate for the Export of Ornamental Pet Birds from the United States to Brazil: Prior to product shipment, the importer must request an LI request from MAPA. Importers must be registered with SISCOMEX to request an LI. APHIS issues health certificates for pet birds. The birds must have been inspected by an official or accredited veterinarian within 7 days prior to shipment and be found free of clinical signs of infectious and contagious diseases and external parasites. Forms must be signed and stamped by an APHIS-accredited veterinarian. The original certificate must accompany the product at the time of entry.
- W. International Health Certificate for the Export of Bovine Embryos Collected *in Vivo* and/or Produced *in Vitro* from United States to Brazil: Prior to product shipment, the importer must request an LI from MAPA. Importers must be registered with SISCOMEX to request an LI. APHIS issues health certificates for bovine embryos. Forms must be signed and stamped by an APHIS-accredited veterinarian. The original certificate must accompany the product at the time of entry. The certificate cannot be applied to multiple containers. Each container must have only one species. If the importer has purchased different species, they must be shipped in separate containers.
- X. International Zoosanitary Certificate for the Temporary Export of Equidae From United States to Brazil: Prior to product shipment, the importer must request an LI from MAPA. Importers must be registered with SISCOMEX to request an LI. APHIS issues health certificates for the temporary export of live horses. Forms must be signed and stamped by

an APHIS-accredited veterinarian. The health certificate is valid for 10 days prior to embarkation. The original certificate must accompany the animal at the time of entry.

Y. Health Certificate for Nile Tilapia Fingerlings from the United States to Brazil: Prior to product shipment, the importer must request an LI from MAPA. Importers must be registered with SISCOMEX to request an LI. APHIS issues health certificates for caprine semen. Forms must be signed and stamped by an APHIS-accredited veterinarian.

Z. International Animal Health Certificate for Export of Dog Semen from the United States of America to Brazil: Prior to product shipment, the importer must request an LI request from MAPA. Importers must be registered with SISCOMEX to request an LI. APHIS issues health certificates for dog semen. Forms must be signed and stamped by an APHIS-accredited veterinarian. The original certificate must accompany the product at the time of entry. The certificate cannot be applied to multiple containers. Each container must have only one species. If the importer has purchased different species, they must be shipped in separate containers.

AA. Health Certificate for Lobster and Lobster Products from Wild Fisheries: Prior to product shipment, the importer must request an LI from MAPA. Importers must be registered with SISCOMEX to request an LI, which is valid for a maximum of 30 calendar days. The original certificate must accompany the product at the time of entry.

BB. Addendum to the VS Form 17-141 for Export of the *Penaeidae* Family from United States to Brazil: Prior to product shipment, the importer must request an LI from MAPA. The animals were examined within 5 days before shipment and showed no cutaneous lesions and no clinical signs of disease, or suspicion of disease and were considered fit for transport. The original certificate must accompany the product at the time of entry

## Section V. Other Certification/Accreditation Requirements

According to the equivalence system established with Brazil, the United States can only export to Brazil the following animal-origin products:

### A. Meat

#### a. Beef

1. Beef, beef products, and beef offals sourced from cattle slaughtered and processed on or after July 27, 2016 except as noted below in B. Ineligible Product and the [Eligible Establishment List for Brazil](#).
2. Pork casings.
3. Lamb casings imported from New Zealand that have not undergone processing or repackaging in the U.S.
4. Airline Meals - U.S. meat intended for use in meals on airlines for the consumption of the crew and passengers on board international flights may be exported from any U.S. inspected facility.
5. Protein free tallow.
6. Edible products for pharmaceutical or other industrial purposes.

### Meat Plants Eligible for Export

#### A. Establishment Registration

1. Establishments wishing to export to Brazil are required submit FSIS Form 9080-3: *Establishment Application for Export* through PHIS. Please refer to [FSIS Directive 13,000.5](#), *Public Health Information System Export Certification*, for more information and instructions on the FSIS web site at: <https://www.fsis.usda.gov/wps/wcm/connect/37ff3667-252b-45c6-baa4-1d828460afa0/9080-3-Application-Submission.pdf?MOD=AJPERES>.
2. IPP are to be aware that export applicants that do not have access to or use PHIS are to send a fully completed paper copy of FSIS Form 9080-3 to the FSIS Proxy, using one of the three options listed below, for entry into PHIS on the applicant's behalf. FSIS Proxy information is located on the [FSIS Export Library](#) page.
  - i. Email: [FSCEXport.Recon@usda.gov](mailto:FSCEXport.Recon@usda.gov);
  - ii. Mail: U.S. Department of Agriculture, Food Safety and Inspection Service, FMD, Financial Services Center,  
P.O. Box 9205, Des Moines, IA 50306-9948; or
  - iii. Fax: 1-844-378-1048

#### B. [Eligible Establishment List for Brazil](#)

1. FSIS will certify these establishments to the Government of Brazil when OPPD approves the FSIS Form 9080-3. Product cannot be shipped until confirmation of both establishment and label of registration is received from the Government of Brazil. When FSIS receives notification from the Government of Brazil that the establishment is registered with MAPA/DIPOA, FSIS will update the [Eligible Establishment List for Brazil](#).

## **b. Poultry**

- Highly Pathogenic Avian Influenza (HPAI):

The following products are ineligible for export from the location and production dates specified below:

- Poultry meals and digests
  - From the following areas: The entire United States on or after April 8, 2020 and on or before August 5, 2020
- Feather Meal for Animal Feeding
  - From the following areas: Chesterfield County, South Carolina on or after April 8, 2020 and on or before August 5, 2020
- Velogenic Newcastle Disease (vND): USDA has confirmed cases of virulent Newcastle disease (vND) in several counties in California.
  - Poultry meals and digests
    - From the following areas: The entire United States on or after May 17, 2018 and on or before February 28, 2020
  - Feather Meal for Animal Feeding
    - From the following areas:
      - Los Angeles County on or after September 25, 2018; and before January 9, 2019;
      - Riverside County on or after December 14, 2018 and before February 25, 2020;
      - San Bernardino County on or after January 24, 2019 and before February 25, 2020;
      - San Diego County on or after August 31, 2019 and before February 25, 2020;

## **B. Dairy**

1. Milk, powdered milk;
2. Whey, whey protein concentrate, whey protein isolate;
3. Milk protein concentrate, milk protein isolate;
4. Casein;
5. Lactose;
6. Cheese; and
7. Other dairy ingredients.

### **Dairy Plants Eligible to Export**

Plant Approval/Registration: Registration under this category must be done directly through the Foreign Agriculture Service's Office of Agriculture Affairs in Brasilia (FAS/OAA). FAS will need a formal letter from the company to insert the producing plant in Brazil's list of eligible plants.

## C. Fish

1. Fresh and frozen fish;
2. Roes and seasoned capelin roes;
3. Frozen crustaceous; and
4. Frozen lobsters and lobster products
5. Live Lobsters
6. Live Shrimp (*Penaeidae* family)

### Certification Requirements

In January 2010, Brazilian Ministry, The Department of Fisheries and Aquaculture Control published aquatic health regulations on the fishery products into Brazil. These regulations are within the scope of their authority under OIE and WTO guidelines and are currently in effect. Brazil requires importers in Brazil to obtain import permits prior to bringing seafood products into Brazil. US exporters are required to be USDC NOAA Seafood Inspection Program Approved Establishments

On April 24, 2020, the Brazilian Ministry published Circular Letter#81/2020/DHC/CGI /DIPOA /SDA/ MAPA. This regulation provides for US exports of lobster and lobster product certification using the *Health Certificate For The Import Of Lobster And Lobster Products From Wild Fisheries*. Brazil requires importers in Brazil to obtain import permits prior to bringing seafood products into Brazil. US exporters are required to be USDC NOAA Seafood Inspection Program Approved Establishments

### Other Information

#### *Tolerances and Guidelines*

Total Mercury:

- 0.5 ppm for non-carnivore fish
- 1.0 ppm for carnivore fish.

The Brazilian legislation on sanitary inspection of animal products, RIISPOA, since 1952 through Decree No. 30.691, considers as improper for human consumption fish that contains massive muscle infestation by parasites, which may or may not harm the health of the consumer. RIISPOA was updated through Decree 9.013 / 2017 dated March 29, 2017, duly informed to the WTO, which provides provisions on clearer fish parasites and in agreement with the current scientific literature.

This Decree provides the following requirements on official control and understanding by the establishments:

*Article 209 establishes the control of parasites as one of the official controls to be carried out by the sanitary authority*

*Article 212 establishes the obligation of visual verification of injuries attributable to diseases or infections, as well as the presence of parasites through monitoring performed by qualified personnel of the establishment.*

*Art. 499 It considers improper for human consumption the fish or products of fish that presents massive muscular infection by parasites*

US exporters to Brazil must:

- implement the Codex Code of Practice for Fish and Fishery Products
- apply the Codex Alimentarius Standard 36-1981 for quick frozen finfish

- apply Codex Standard 190-1995-Rev 2011-2013-2014 Quick Frozen Fish Fillets Fishery Plants Eligible to Export

The U.S. Department of Commerce Seafood Inspection Program (SIP) will issue certificates to U.S. facilities that have applied to be part of NOAA's Seafood Inspection Program. For more information, please see:

<https://www.fisheries.noaa.gov/insight/noaas-seafood-inspection-program>

Plant Approval/Registration: All fish-processing plants must send a formal registration request to NOAA, which will contact FAS/OAA to request that the plant be included in Brazil's official list. Contact NOAA through the office below:

**USDC NOAA Office of International Affairs and Seafood Inspection Program**

Page 1 of 2 BR Rev. March 2020

### II.1. Atestado de saúde pública/Public health attestation

*O Inspetor Oficial certifica que / The Official Inspector certifies that:*

a. *a lagosta foi capturada e manipulada a bordo dos barcos, conforme as normas higiênico – sanitárias estabelecidas pela(s) Autoridade(s)*

*Competente(s) no país de expedição / the lobster were caught and handled on board the boats, according to the hygienic standards established by the Competent Authority(ies) from the country of dispatch;*

b. *a lagosta foi desembarcada, manipulada, embalada, preparada, transformada, armazenada e transportada de forma higiênico – sanitária em estabelecimentos oficialmente controlados pela(s) Autoridade(s) Competente(s) no país de expedição, respeitando os critérios organolépticos, parasitológicos, químicos, virológicos ou microbiológicos e em condições, ao menos, equivalentes as Normas e Códigos de Práticas do Codex Alimentarius / the lobster were landed, handled, packaged, prepared, processed, stored and transported in hygienic - sanitary facilities officially controlled by the Competent Authority(ies) from the country of dispatch, respecting the criteria organoleptic, parasitological, chemical, microbiological or virological the country exporter and conditions, at least, equivalent to the Standards and Codes of Practice of the Codex*

*Alimentarius;*

c. *a lagosta e seus produtos foram obtidos em condições higiênicas, em estabelecimentos, barcos: fábrica e congelador, oficialmente habilitados a exportar para o Brasil, que implementaram os Programas de Boas Práticas de Fabricação (BPF), Procedimentos Padronizados de Higiene Operacional (PPHO) e Programa de Análise de Perigos e Pontos Críticos de Controle (APPCC), com verificação sistemática / the lobster and its products has been obtained under hygienic conditions, in establishments, factory and freezing vessels, officially accredited to export to Brazil, that have implemented Good Manufacturing Practice (GMP), Sanitation Standard Operating Procedures (SSOP) and Hazard Analysis and Critical*

*Control Point (HACCP), under systematic verification;*

d. *este carregamento atende todos os requisitos de qualidade e segurança estipulados pela(s) Autoridade(s) Competente(s) no país de expedição, relativos ao pescado produtos, tendo sido submetido ao Programa Oficial de Controle de Resíduos e Contaminantes em Pescado, estando, portanto apto ao consumo humano, destinado a exportação dentro dos prazos e temperaturas normais de transporte previamente estipulados / the consignment complies with all quality and safety requirements, stipulated by the Competent Authority(ies) from the country of dispatch relating to*

*fishery products, with regard to healthy and wholesome fish, having been subjected to the Official Program of Residues Control And*

*Contaminants for Fish, and fit for human consumption, destined for export taking into account the normal time of transportation;*

*e. o material utilizado na embalagem é de primeiro uso e satisfaz os requerimentos higiênico – sanitários estabelecidos pela(s) Autoridade(s) Competente(s) no país de expedição / packing material is used for the first time and satisfies the sanitary-hygienical requirements established by the Competent Authority(ies) from the country of dispatch;*

*f. os meios de transporte são tratados e preparados e satisfazem os requerimentos higiênico – sanitários estabelecidos de acordo com as regras aprovadas pela(s) Autoridade(s) Competente(s) no país de expedição / means of transport are treated, prepared and satisfies the sanitary-hygienical requirements in accordance with the rules approved by the Competent Authority(ies) from the country of dispatch.*

*g. para produto identificado como congelado, os produtos não foram descongelados durante a estocagem e foram despachados com temperatura no centro do músculo não superior a -18°C(1) / For indetified frozen product, the product was not defrosted during storing, and the temperature in the muscle thickness is not higher than -18°C(1)*

*h. para produto identificado como resfriado, os produtos encontram-se resfriados a uma temperatura próxima a 0°C (ponto de fusão do gelo)(1) / For identified fresh product the products should be kept at a temperature as close as possible to 0 °C (melting ice)(1)*

*i. os produtos não sofreram a adição de fosfatos ou similares antes de seu congelamento(1) / The product does not contain added phosphates or similar before freezing(1).*

## *II.2. Atestado de saúde animal/Animal health attestation*

### *Informações zoossanitárias/Zoosanitary requirements*

*j. As doenças notificáveis da OIE que são listadas são obrigatoriamente notificáveis. /The OIE notifiable diseases that are listed are compulsorily notifiable.*

*k. Os animais aquáticos não estão sujeitos a qualquer restrição pela NOAA ou são destinados a destruição ou abate para efeitos de controlo de doenças. / The aquatic animals are not under any restriction by NOAA or intended for destruction or slaughter for disease control purposes.*

## *II.3 Requisitos de transporte e rotulagem/Transport and labeling requirements*

*l. A remessa é identificada por uma etiqueta legível no exterior do embalagem, com todas as informações relevantes mencionadas neste certificado. / The consignment is identified by a legible label on the exterior of the package with all relevant information referred to in this certificate.*
